THE FOLLOWING IS FROM THE CIA/IMAGERY ANALYSIS DIVISION:

25 OCT 1965

EXAMINATION OF FAIR QUALITY PHOTOGRAPHY OF THE GLADKAYA
ICBM COMPLEX ON [] INDICATES THAT POSSIBLE LAUNCH
F-9 (56-15N 92-16) IS NOT A VALID SITE. THIS IS EVIDENCED BY
IMPROPER SPACING BETWEEN ADJACENT SITES, LACK OF A SITE SIGNATURE AND
NO SIGNIFICANT CHANGE IN THE APPEARANCE OR LEVEL OF ACTIVITY AT THE
SITE AREA IN THE PAST 15 MONTHS [] THIS
INDICATES THAT SITE F-11 IS NOT THE BEGINNING OF A NEW LAUNCH
AND IT IS SUGGESTED THAT IT BE RENUMBERED.
